Context

**Goals + Success**

The goal of this design is create a professional and visually appealing portfolio website to represent myself to potential employers.

**Audience + Need**

The target audience for the portfolio website is an employer looking to engage a dev and/or IT professional. The website should cater to the following knowledge and expectations:

- technical knowledge relating to information technology, software development/coding, programming languages and development tools
- high expectations of professionalism and a positive work ethic

Diagram

## Sitemap

This is a representation of the intended flow of my Portfolio webpage.

- Description of your portfolio website, including:
- Purpose
- Functionality / features
- Screenshots
- Sitemap
- Target audience
- Tech stack (e.g. html, css, deployment platform, etc)
